

# Get Your Kids Out of Public Schools!

I HOMESCHOOL  
BECAUSE I HAVE  
SEEN THE VILLAGE  
AND I DON'T  
WANT IT RAISING  
MY CHILDREN.

**Public Schools Are Failing!** - Parents are pulling their kids out of public schools in ever-increasing numbers. Test scores across the nation show the majority of kids are below grade level in basic subjects, such as reading, writing and math. Johnny can't read but he seems to know a lot about pronouns. Educational standards are being lowered to ensure equity (and mediocrity) for all. Public schools are failing in their primary mission to prepare young people to function effectively as adults and to teach them the basics of good citizenship and civic responsibility.

**Education versus Indoctrination** - Having turned most of the overpriced colleges and universities into indoctrination centers (thanks to the domination of left-wing professors in academia), the government is now directing their brainwashing efforts toward K-12 (and younger). Rather than teach children **how** to think, they are teaching them **what** to think. Facts, basic skills and love of country have become secondary to feelings and political ideology, as well as the flawed and specious concepts of systemic racism and climate change.

**Woke Curriculum and Social Engineering** - Unfortunately, there is a deliberate plan to dumb down education itself and corrupt the morals of the young people of America. An unelected state board of education develops courses in comprehensive sex ed that encourages early experimentation and deviant sexual practices while graphically providing the mechanics of such behavior. Ethnic studies courses claim to be simply teaching "real" history while fostering anger, resentment and hate toward a "dominant culture." Rather than transparency with parents, activists within the schools are secretly collaborating with students and promoting a rapidly spreading social contagion of transgenderism. Contempt for America's ideals and revisionist history, as well as CRT (critical race theory, DEI (diversity, equity and inclusion) and SEL (socio-emotional learning) undermine the freedoms and equality guaranteed by the U.S. Constitution.

**"Give me a child until he is 7 years old and I will show you the man."** - The original quote by Aristotle has been co-opted in some form by the Jesuits, Vladimir Lenin and Adolph Hitler. While there is some hope that children will adopt the values of their parents, once they are exposed to the influence of others, even in pre-school, they are subject to woke indoctrination. Up until the age of 8 or 9, children are natural sponges and absorb everything they are told. Sadly, we can no longer trust that those responsible for their instruction and care "mean them no harm," and the system often leaves even the best of teachers with little choice except to comply or be driven out of the profession.

**Brain Development** - Research has shown that people's brains are not fully developed and capable of thinking logically until the age of 25 or 26. Youth, however, tend to act on their emotions or feelings and, during this time as they struggle to form their personal identities, are exceedingly vulnerable to suggestion and social contagion. This drama is currently playing out among today's youth, often with tragic consequences. Allowing young people to make **life-altering** decisions before they are capable of **rational** decision making is both tragic and immoral. Laws that prohibit anyone under 18 from buying alcohol, cigarettes and guns exist for a reason, yet the "experts" are being given uncontested authority to prescribe high profitability (and dangerous) hormone therapy and transition surgery.

**Teachers' Unions** - Teachers' unions have morphed from labor unions that traditionally negotiated for pay, benefits and working conditions to hijacking curriculum decisions, using high pressure membership enrollment tactics, influencing education legislation with high dollar donations, as well as endorsing and financing quid pro quo school board candidates. Schools were in lockdown for two years at the insistence of the teachers' unions. Be very wary of school board candidates that are endorsed by teachers' unions.

**The Schools Are on Fire!** - Get your kids out **NOW!** The <https://PublicSchoolExit.com> has abundant resources to help you find alternatives to government-controlled education. Visit their website for more information, and sign up for their newsletter. Time is of the essence.
